## Webex App Scheduler

- 1 In the space, click **Schedule a meeting** , and then enter your meeting info:

  - Edit the meeting topic.
  - Choose a **Start** and **End** date and time.
  - Check **Recurrence**, to schedule the meeting to repeat regularly, choose from daily, weekly, or monthly increments.
  - Enter a description, which will be included in the email invitation.
- 2 All members of the space are automatically invited to the meeting. Add invitees by typing their name or email address. Remove invitees by hovering over their name and clicking **Remove**.

 If invitees are unavailable, change the meeting time and their availability status updates, or click **Check calendar** to see their availability.
- 3 To book a meeting room, go to **Rooms** and enter the name or location of a meeting room. You see icons next to room names to show their availability. Click on a room name to add it to the meeting invite.

 Only meeting rooms listed in your organizations directory are displayed.
- 4 Click **Schedule**.

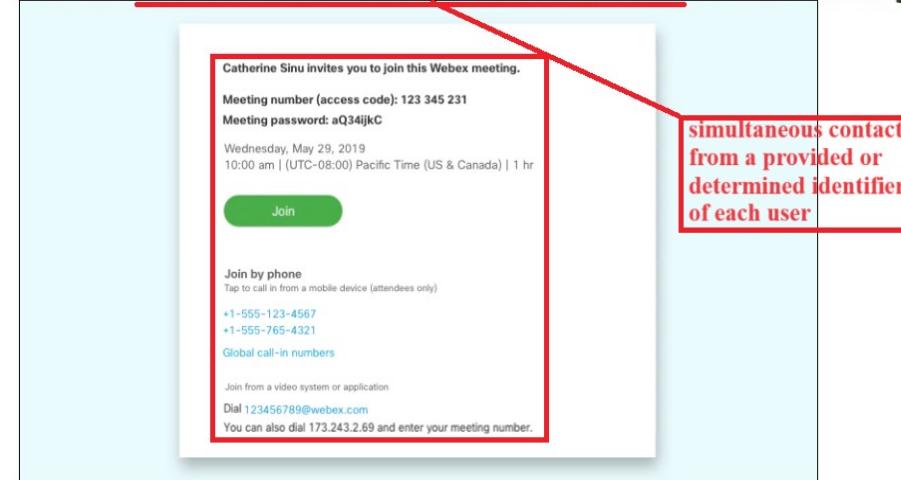

The meeting is added to your calendar. An email invitation is sent to everyone invited to the meeting.

## Add a participant to an ongoing call or meeting on Board, Desk, or Room Series

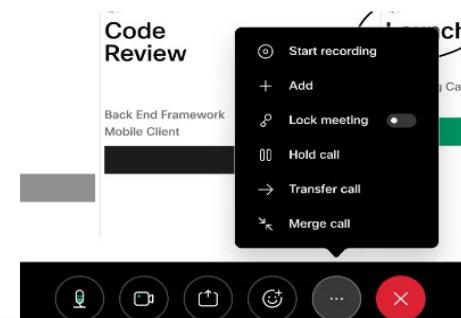

Forgot someone? You can now add both participants and devices to an ongoing Webex meeting or call.

You can add someone to an ongoing call, Webex meeting, or personal room meeting by tapping the **Add** button. You can only add users or devices registered to Webex. It isn't possible to add SIP or PSTN participants.

Board, Desk, Room Series

DX70, DX80

MX, SX

- When you're in a call or a meeting, access the call controls on your device or touch controller. Tap the **Add** button.

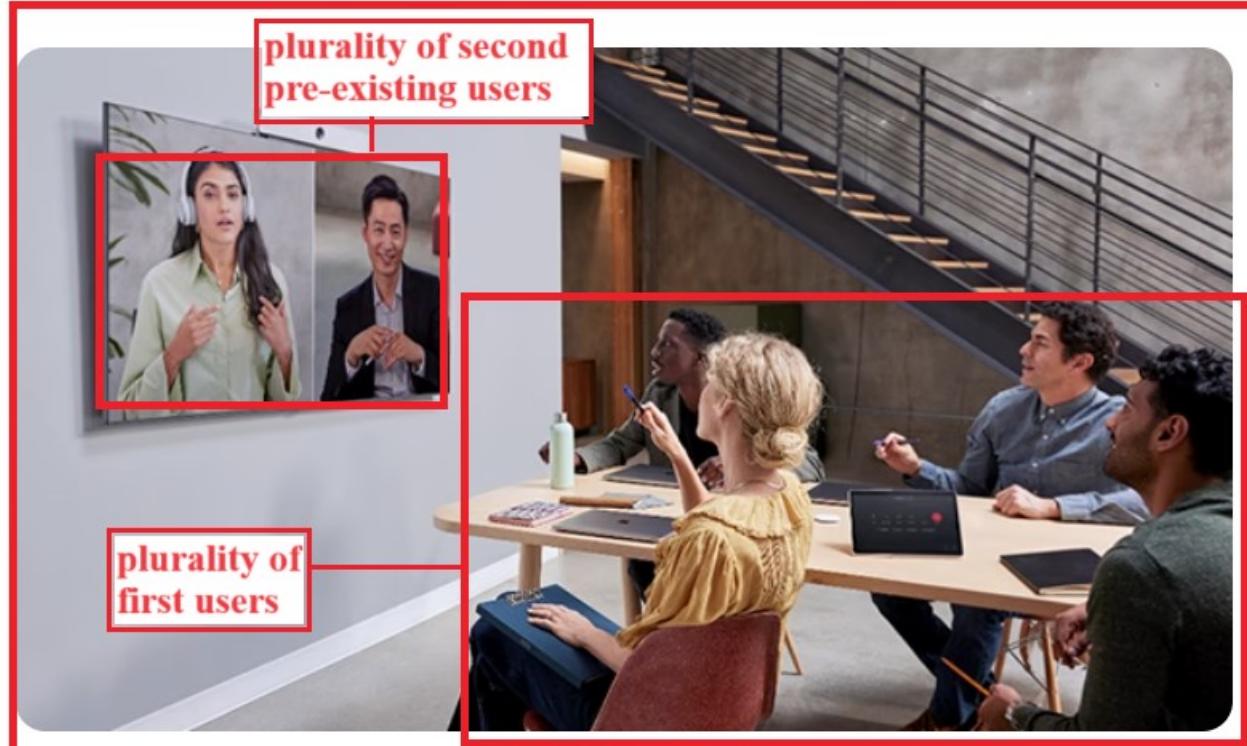

If you don't see it, you might need to tap **More** ... first and then select **Add**.

## Disable Meeting Email Reminders in Cisco Webex Site Administration

You can determine if hosts can send out email reminders for upcoming Webex Meetings, Webex Training sessions, or Webex Events that are scheduled on a Webex site. Email reminders are enabled by default, but you can turn this off.

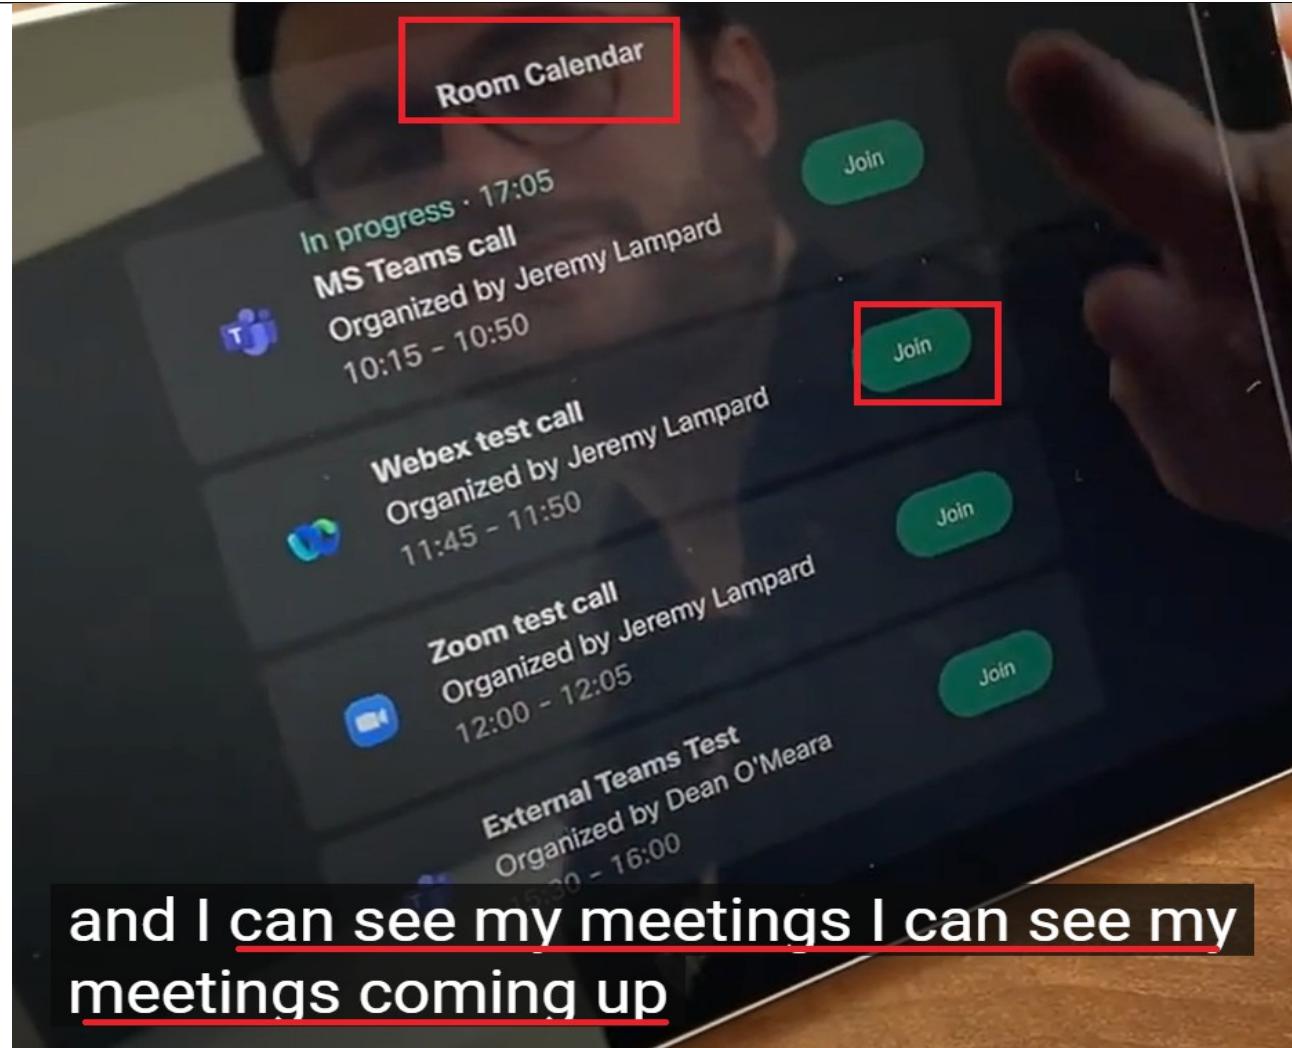

This setting doesn't apply to meetings scheduled in Microsoft Outlook.

- 1 Sign in to Webex Site Administration, and go to Configuration > Common Site Settings > Options.
- 2 Scroll to Schedule Meeting Options, and under Meeting email reminders, select Off.
